DFW, it's time to take your shot

The CIEF DFW Chapter is bringing one of our favorite industry traditions to North Texas with the inaugural DFW Clay Shoot on October 22 at Northlake Shooting Sports.

Join construction industry professionals from across the region for a morning of friendly competition, relationship-building, and a chance to support the next generation of our workforce. Whether you're registering a team, shooting individually, or supporting the event as a sponsor, your participation helps CIEF continue creating career opportunities, scholarships, and workforce development programs for students entering the construction industry.

This is more than a day at the range — it's an opportunity to connect with the DFW construction community while investing in the people who will build its future.
